Decoration Essentials for Your Airbnb Property

Homely experiences are one of the main reason travelers looking for. The famous rentals always offering all the essentials and amenities to create the comforts that bring guest come back over and over again. If you are planning to start your vacation rental and wondering what decoration ideas, here are the tips :

Comfort Beds : No matter how much you are selling per night or how beautiful your decoration, if guest feel uncomfortable with the bed and do not sleep well, they will not come back and worst they will give bad review. Therefore make sure you provide a comfy beds which you will do it just for your own bed.

Fast Internet : Whether tourist or business travelers, everyone need a great WIFI to search for their trips itinerary or work. So same goes to our own house if our internet is slow we won't like to stay at home for long period.

Dinnerware & Utensils : Travelers looking for Airbnb vacation because they want to experience like a local and make some breakfast or coffee before go out for the day. So it is important that you need to provide sufficient dinnerware set.

Bathroom Essentials : Imagine if you have check in late into a vacation rental without bathroom essentials and you need to go out to find all the essentials at late, it is so much inconvenience! So make sure you provide all the necessities.

Linens : Many travelers do not bring towels so you need to prepare at least 2 sets of towels for each guest. Importantly make sure you buy a soft and good quality towels but not the towels you wouldn't want to use at your home.

Living Room Decoration : Guest like to have space in living room where they can watch TV & chatting, so it is important to put a comfortable sofa with throw pillow. Decoration accessories like artificial plants & wall picture will make the living room more lively.
